Application No.: 10/718,176

Reply to Office Action of 06/17/2005

Art Unit: 3745

REMARKS/ARGUMENTS

Applicants have thoroughly reviewed the outstanding Office Action including the

Examiner's remarks and the references cited. The foregoing amendments and the

following remarks are believed to be fully responsive to the Office Action and should

render the claims at issue patentable.

Per Examiner's point 7, original claim 8 would be allowable if rewritten in

independent form including all of the limitations of the base claim and any intervening

claims. Because original claim 8 is dependent on original claim 1, which remains

rejected, claim 1 is currently amended to include the additional limitations set forth in

claim 8. As a result, claim 1 as amended is allowable since it corresponds to original

claim 8 written in independent form. At the same time, claim 8 is canceled. Now that

the amended claim 1 is allowable, claims 2-7 and claims 9-11 must also be allowable for

being depending on the now allowable claim 1.

Besides, per Examiner's point 5, claims 12-20 are allowable. Such is not

impacted by the foregoing amendments. Claim 20 is currently amended only to correct

an obvious typographical error.

Therefore, all pending claims in this application are allowable.

Conclusion

In light of the above amendments and remarks, Applicants respectfully submit

that all pending claims as currently presented are in condition for allowance and hereby

respectfully request that a timely Notice of Allowance be issued in this case.
